

The University of Manchester

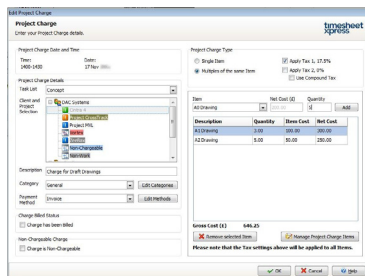

“Since the installation of Timesheet Xpress, we have noticed a marked difference in the ease of time reporting, this is a huge saving on staff time when it comes to Auditing. We also have the peace of mind when presenting Timesheet reports to our Auditors, that we can be confident there will be no duplication of reported time.” Lisa Gledhill, MIOIR

After implementing Timesheet Xpress...

After the initial installation and setting up of Timesheet Xpress, staff have found the software easy to use, which of course has been a major contributing factor in encouraging them to keep their time sheets up to date.

Lisa said “Since the installation of Timesheet Xpress, we have noticed a marked difference in the ease of time reporting, this is a huge saving on staff time when it comes to Auditing. We also have the peace of mind when presenting Timesheet reports to our Auditors, that we can be confident there will be no duplication of reported time.”

About Timesheet Xpress...

As a leading application based product for logging and managing project efficiencies in any organisation, Timesheet Xpress is being used by thousands of users in over 40 countries. The software is easily installed on either stand alone or network computers and offers a range of configurations for use in organisations of all sizes from independent consultants relying on accurate tracking of “billable hours” to large corporations who are concerned not only with project management and staff productivity but also with timely management information for the purposes of workforce management and staff optimisation when forecasting and scheduling outputs. Timesheet Xpress will monitor organisational productivity and performance through time and attendance with quick and easy to use reporting. With accurate and timely information, effective planning and decisions can be confidently made leading to increases in business competitiveness. With links to various applications such as accountancy packages (Sage & Quick Books), Microsoft Project, Excel, Timesheet Xpress offers a seamless integration into many existing business applications in organisations of all sizes and in many sectors. For specific questions please call our UK office on +44 (0) 870 225 1790 office hours are 0830hrs – 1700hrs (GMT)

Comments from some additional users...

FROM: J. DE WIT – ACADEMIC MEDICAL CENTER AT THE UNIVERSITY OF AMSTERDAM (NETHERLANDS)

“It (Timesheet Xpress) makes steering and planning easier as the number of hours spent in each project are actually and in the history know.

In comparison with using spreadsheet program for it I estimate it saves us at least one hour for each employee. In comparison with a spreadsheet program: it saves a lot of time.”

FROM: MJ FICK - PETANQUE (SOUTH AFRICA)

“We’ve been using it with great success for a number of years now. It simplifies timesheet logging, tracking and billing tremendously... Your support is great and value for money absolutely excellent!”

FROM: G SCOTT – CASSIDY & COMPANY (CANADA)

“This software has paid for itself many times over in the time we used to spend on manual sheet, it gives us great reporting capability and was very easy to implement on our existing systems!”
